June 2009	WM 12 WM 14WB WM 20WB WM 25WB WM 23 WM 6LP WM 10LP

### Feature Overview

WellMate's Quick Connect series of captive air tanks utilize threadless connections at both the service connection and the tank drain assembly in order to improve both the ease of installation and product serviceability.

The exclusive WellMate replaceable butyl aircell can now be used in applications where continual use of chlorine is required.

### Why is WellMate offering these features?

- Ease of installation and serviceability
- Built in union
- Allow for variety of plumbing connections (plastic, metallic, threaded or sweat)
- Improved chlorine resistance for a wider variety of applications
- Tank can be rotated after installation so product specifications are accessible.

### Target Industries

Residential, Light Commercial, Agricultural
